

April 18, 2015, Michael Green was honored with a Resolution from the State of Georgia for overcoming his disability as a deaf person in “*a manner that is an inspiration to all who suffer the same disability.*” This was presented by retiring State Representative Tom Rice at a fundraiser event for the Auditory-Verbal Center (AVC), where Michael received training as a deaf child. Michael is currently serving on the AVC Young Professionals Board, and has continued adding to his list of accomplishments. After completing his undergrad from Mercer with honors, he earned a Master of Science in Financial Services from Georgia State in an accelerated one-year program. He then graduated from the 2017 Gwinnett Young Professionals Leadership Institute, became a Certified Wealth Strategist (CWS®) Professional and a National Social Security Advisor (NSSA®) Certificate Holder, and has been working as an advisor here at GFR. We cannot wait to see what he accomplishes next!
